# ABOUT US

---

At Transcend Hospice, we are devoted to providing the highest standard of care during difficult times of need with our driving goal of support for patients with terminal illness and their surrounding loved ones. We emphasize the notion that nobody should transcend alone. Hospice care provide support to undergo the physical, emotional, and social challenges that accompany terminal illness. With nurses available after hours and around the clock, patients can rest assure knowing they're receiving 24/7 care. We consider it our personal responsibility to ensure that when the time comes, our patients comfortable and at peace we work together with patient's families to families to create a customized plan respecting the specific wishes of each patient. Provide members of your community the care and comfort they deserve by owning your own Transcend Hospice in your area and understand the true meaning of fulfillment.

# MISSION

---

Transcend Hospice provides 24/7 Hospice care for patients suffering from terminal illness. Hospice is not aimed to prolong or shorten life. Instead, it ensures that when an individual passes away, they are comfortable, their wishes have been met and most importantly they're never alone. The latter aspect makes Transcend Hospice superior to other Hospice care. With a 94% success rate, the Transcend Hospice team has the on going goal of ensuring all patients are accompanied during this time of need we develop a philosophy to empower patients and shift the focus towards the practical side of living as opposed to finality of life.

# OFFERING

---

In order to provide your community with the necessary care to make their final transition, invest in a Transcend Hospice franchise. There is no feeling more rewarding than owning your own hospice location and finding peace along side your clients.

Our team has developed processes that generate office and management efficiencies, which have in turn lead to financial margins that are 3x the national average. All equipment and supplies necessary are included in the franchise start-up cost. Additionally, little to none office space is needed. In fact, only about 500 square feet of space is required, even if that space is inside your home.
